

During October, members of the community are invited to participate in **1-hour focus group sessions** with the Studer Education<sup>SM</sup> facilitator to discuss their vision of success for the District, the values they hope will be reflected in this vision, and the District's strengths and opportunities for improvement. Every session will be guided by the same questions; therefore, interested members of the community may **select their group's most convenient time and date**. If members of the community are unable to attend their particular group's session, they may attend any of the other sessions, excluding the student groups (please see schedule below). The Steering Committee will analyze focus group feedback at its meeting on October 18<sup>th</sup>.
